A Decade of Doing

The idea of building a school like W. P. Wagner High School was in the minds of education planners and administrators of the Edmonton Public School Board as far back as 1957.

Some practical implementation of the planning done started in 1960-61 in some junior high schools and in the Kingsway shops.

In 1964 the programs were extended by creating the so-called laboratory schools - McKay Avenue School and the Old Scona School.

The expansion of the programs was necessary because of the increase in demand.

In 1964 the Edmonton Public School Board was in the position to make use of the money supplied by the federal government according to the Technical-Vocational Training Agreement between the Province of Alberta and the federal government.

Subsequently, on March 10, 1964, the name of the school was given as W. P. Wagner High School, in recognition of Mr. William Phillip Wagner, B.A., M.Ed., for his contribution to education as Superintendent of the Edmonton Public School System.

On April 4, 1964, the first principal was designated - Mr. Elmer S. Gish.

The same month, on the 9th, the architectural firm of Sinclair, Skakun and Naito was commissioned to design our school.

In July of 1968, the school was completed by the contractor - Poole Construction Company Ltd. at an approximate cost of \$5,500,000.00.

The big day finally arrived on September 3, 1968 when the doors opened the first time to 800 registered students.

The official opening took place on January 31, 1969 with guests from the Government of Alberta, Edmonton Public School Board, the Edmonton-Strathcona constituency, as special guest - Mr. W. P. Wagner. In lieu of the traditional "Ribbon-Cutting", the "Golden Chain" was cut with a blazing oxy-acetylene torch.

In September, 1969, the second year of operation started with 900 registered students.

As expected, the school had many firsts, but on November 25, 1969, the most unusual took place: Our banana tree, in the greenhouse, burst forth with a cluster of fruit, 48 bananas in all.

With the end of term we lost our first principal, Mr. Elmer Gish, who took up the position as superintendent of the St. Albert Separate School Board. He was replaced in the next term by Mr. D. P. Stetsko, past assistant principal.

At the Graduation Exercises on June 11, 1970, the Wagner Warrior, a project of the welding department, was brought to life and served in the future as a traditional part of our school.

In the years that followed, the student enrollment increased to over 1100 a year.

Changes in teaching staff have been many, of the original 71 teachers there are but 16 still on staff.

After eight years as principal, Mr. Stetsko left us to be replaced by our present principal, Mr. E. Harder.

The world does not stand still and with the passage of time we mourn the passing of:

Mr. D. Innes, 1969, teacher

Mr. A. J. Perry, 1971,

assistant principal

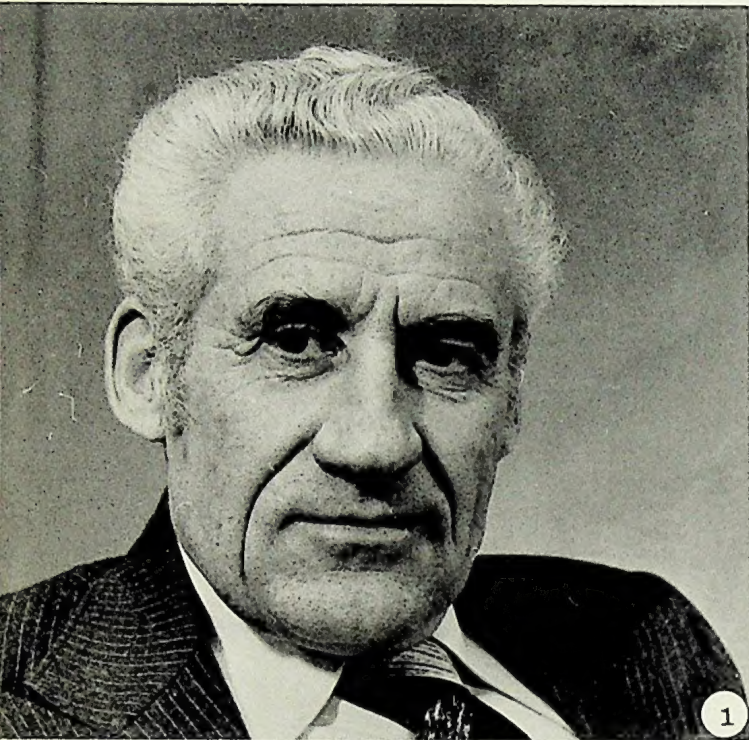

Mrs. L. Whitney, 1972,

office clerk

Mr. W. Gall, 1976, teacher

During the past ten years, not only have the students benefited from the services of our school, but the community at large looks to our school as a stepping stone for their sons and daughters in a world which otherwise would have been closed for many of them.

Principal's Message

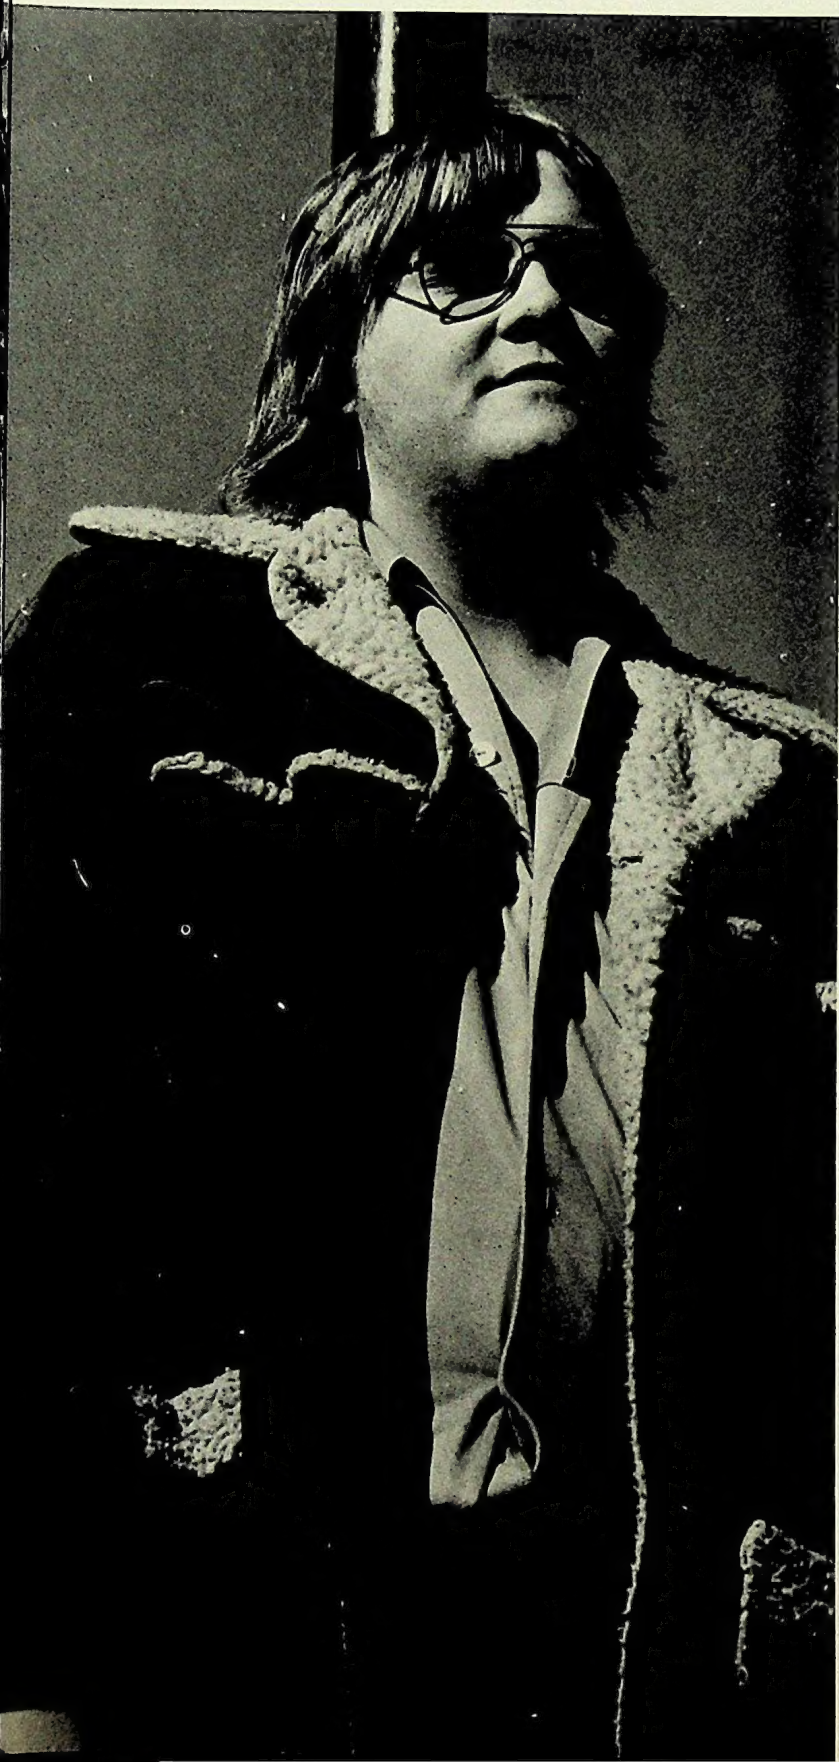

Congratulations to all who have contributed to making the 1977/1978 Year Book a success.

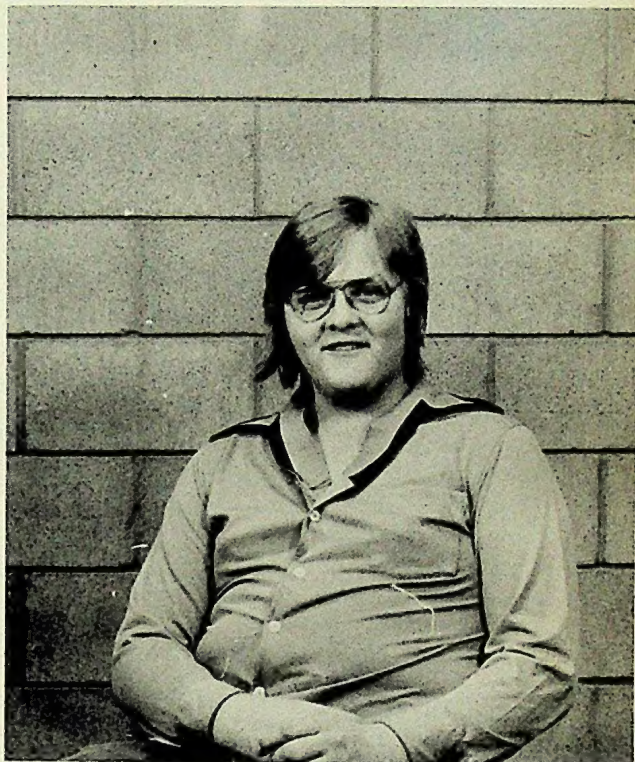

The cooperation, quality of workmanship and the portrayal of work and pleasure recorded here indicate that the hopes and aspirations which motivated the planning and construction of W. P. Wagner High School are being realized.

This Year Book, as those which have preceded it, will serve as a continuing reminder of friendships, events and experiences that have had a part in making us what we are. Hopefully these memories will be pleasant and positive in that they have enriched our lives, broadened our horizons and have indicated more clearly a place and purpose for each of us.

President's Message

Being President of Student Council has been a very rewarding and exhilarating experience. However, that time of the year has come again when the old Student Council must move on and allow the new council to take over. I hope they have as much fun as I did.

I would like to take this opportunity to thank all the students, student council and staff members for their participation which made this year such a success.

Similarly, I would like to sincerely wish all the best in the future to the graduating class of '78.

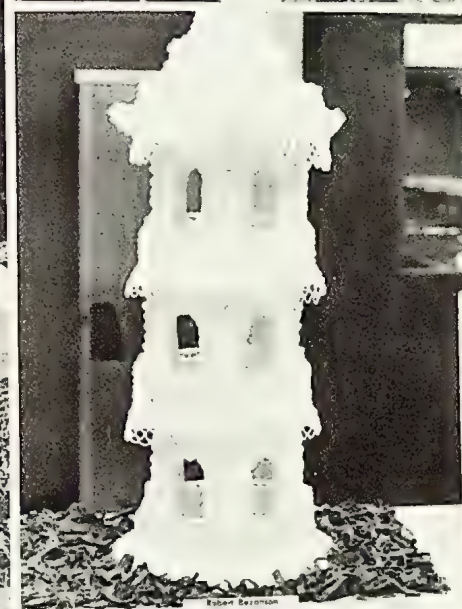

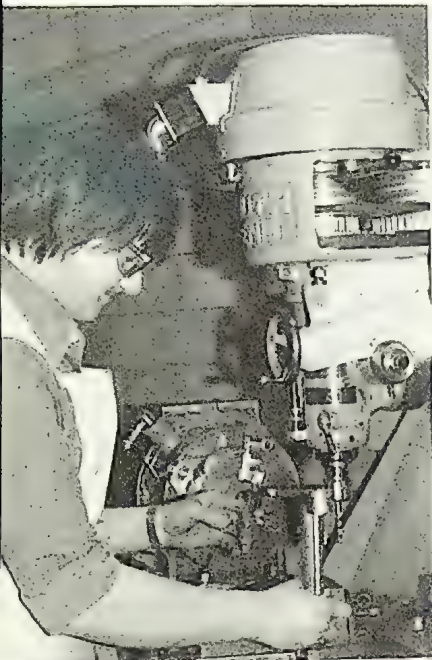

Robert Bezanson

Valedictory Speech

Mr. Harder, Honored Guests, Staff and My Fellow Graduates;

Do you remember how paranoid we all were our first couple of weeks, maybe even months for some, at this school? We probably all had heard the threatening tales about students and staff here, while we were in junior high. My first day I expected to be chained to my desk and beaten by the third years. And when we arrived, those year two's had us scared to death of this Ecology teacher named Mr. Teske. I think I shook for the first month out of the five, and then realized Mr. Teske wasn't bad at all, only that he had to let us know who was boss. You can believe me, we knew it.

Over the five months in his class, we not only found out that Mr. Teske was quite a teacher, but quite a comedian as well. He always seemed to have the class laughing about something, when he wasn't letting us know he was boss.

In my class were some funny people, who I won't mention, Lurn Senko and these people had Mr. Teske explain how Upland Game Birds mated so many times that he was beginning to moult.

Year One was probably the funniest year.

The end of year one became harder when we had to make the big decision, of what vocational area we would specialize in, and make our future. This decision was very hard as all the courses taken were enjoyable.

Year two was working harder towards our future. As you can see we all survived and are quickly entering our working world.

Finally, year three, which is quickly coming to a close, was probably the most educational as the students were out into the working field of their vocational area for a couple of weeks on a full time basis. The best way to learn is going out and getting a small taste of what is in store for us. Thanks to our work experience program, many students have found their first full time job after graduation.

After three long years we have finally made it through senior high. The past years have been long but good, as we are now prepared for our future.

From the very first day we set foot in this school, our teachers made it their job to give us the confidence and encouragement we need in order to enter the working world. They have helped us to find our goals in life and be ready for oncoming adventures. The staff of this special school have given us all the help possible, and this is what makes them the finest teachers. These teachers were there at all the right times and pushing when we needed it most. Without their support we couldn't have possibly made it.

I thought that taking that step from junior high to senior high was something, but tonight we are graduating, and off to start our future

Congratulations to all grads on this special night, and good luck in oncoming years.

Special thanks to all of our parents who put us through these past three years, and again to the teachers for their patience and much appreciated support.

Thank you all!

Valedictory Speech

As the school year comes to a close, I'm sure many of us will be leaving with sadness in our hearts. For the graduation class, this is not just the end to another year, this one is special and memories of tonight will stay with us for the rest of our lives. In the past three years, we have all been drawn together by one common factor, W.P. Wagner and our desire for a good education.

For many of us who will be furthering our education, this is not the end but merely a completed step in the process. For those who will be stepping out into the world and pursuing their chosen career, I'm sure we are all in agreement when I say that the skills and knowledge attained here will always be something we can relay and lean upon.

W. P. Wagner is unlike other high schools. The trades and skills offered by a very competent teaching staff is unparalleled anywhere. We, the graduating students were more than fortunate to have been given the opportunity to exploit these special features of this fine facility. For this we are grateful. The credibility of this school can best be exemplified by the success of former graduates. I am sure that the graduates of '78 will be no exception.

Thank you.

Grad Predictions

ROBERT VERHAGEN will be smarter than Einstein. Only 12 people understood Einstein, nobody understands Robert.

DEENA WHITEHEAD will have a famous route named after her. Like the Yellowhead route but shorter, the Whitehead route goes from Wagner to the Cow!

DAN WEIDERSPEIL will open a centre for drug addicts. The most famous event will be a curling tournament called the Weeder's Speil.

RICK PLUIM will become a sidewalk superintendent at his girl friend's construction project. He loves to watch her build.

DAN RANDALL will always be AWOL - "After Women Or Liquor"

TOM BROWN will become a mattress tester. He's so lazy he sticks his nose outside so the wind will blow it.

ANNE WERKMAN will become rich, and give money away to students to keep them happy. This will be called Werkman's Compensation Board.

BRENDA FILIPECK will become a rich and famous poetess. Her specialty will be reading poetry for charity, after all she has already had lots of experience doing Benifit performances.

BARRY STAROZIK will go into horticulture. Barry's class has voted him as student most likely to go to seed.

JEANETTE PERRIN will spend most of her time playing bridge - until the cops look under the bridge, that is.

SUZETTE KRISTENSEN will go to work for Parks and Rec. demonstrating mouth to mouth resuscitation. Both her and her assistant Walter, will get fired for working too much overtime.

BRUCE DAVEY will go into demolition driving. Unfortunately E.T.S. will have to let him go.

JIM POHL and DOUG BOOTH will work for Edmonton Telephones, they can use another telephone Pole or phone Booth.

RICK CUMMING and MR GOIN will work at a hospital. Rick will take care of newborns, Mr. Goin will run the morgue. The sign above their area will read, "Coming and Going".

CINDY PALINDAT will work in a warehouse. She will be piling dis here and Palindat der.

BILL DRENNAN and DON EPPS will get hired as maintenance men on the Leaning Tower of Pisa. It won't take them long to straighten up that mess.

DON FEHR will become a baseball player and drive the crowds crazy deciding whether fair is foul or foul is "Fehr".

DENNIS NICHOLS and WAYNE NICKOLEF will open rival car washes. They will have a price war of course. They will call their places Dennis' Nichols Car Wash and Wayne's Nickle-Off Car Wash.

MEGAN SYKES, PENNY BRODA, DEBORAH VANHERWAARDE and KATHY BELAIR will take advantage of their training in Institutional Service. They will have lots of trouble managing the little darlings until Kathy solves their problems with an invention. She will nail one of their shoes to the floor. That way the children can still run around, get lots of exercise but can't run away or get lost.

WARREN BOYD and JIM BLACK are going to open a pet shop specializing in Black Boids of course. They will get insulted when their black birds call them cheap cheap. They will move to the Amazon, sell ashes from a crematorium to the cannibals as "Instant People".

HEATHER TEWS is going to become a world famous hairdresser. Out of gratitude, Trudeau will declare a special day just for her - Tews Day.

DWAYNE STYKALO will be a famous photographer. His greatest achievement will be to convert a 35mm camera to metric.

DEREK KIERNAN will be a professional photographer. He and Sue will go into a darkroom and wait for things to develop.

COLLEEN KEDDIE and CLAYTON WILLIER will go through life together - she's a headache and he's a pill.

BOB MUNRO will win the Motor Mouth Award.

ROLAND NAZAREK will spend his life in Horticulture because he is a real sod.

BRENT BEAUDRY will finally make a decision which he likes best - girls or his soccer ball!

These Grad predictions were Created, composed, corrected and presented to the Grads at their banquet by Mr. Tomlinson and Mr. Binfet.

The 1978 Yearbook was produced by the following Year Two and Year Three Photography students. Layout, design, pasteup and the complete photographic process was done entirely by these students. A list of their specific areas of endeavor follows.

Advertising layout, sales and composition was done by Laurie Wright and Dwayne Stykalo. This is the first time advertising has been included in our book.
